TASMANIAN CONTAINER REFUND SCHEME OUTLINE WELCOMED

The Australian Council of Recycling (ACOR) today welcomed the Tasmanian government's outline of the states proposed 10cent refund on recycled drink containers.

"A well-governed and implemented container refund scheme for Tasmania will be a win for the environment, community and business", said Robert Kelman, ACOR CD Division Coordinator.

"The government's proposed model of tendering for the collection network is appropriate and offers the best opportunity for Tasmanian consumers to be supported by a diverse and convenient network of refund points", said Kelman.

"ACOR and its members look forward to supporting the government implement a scheme that supports consumers and maximises recycling rates as these companies invest in infrastructure to make it happen", said Kelman.
